Our Members.

Our members come from all sectors of the financial services industry and advise over 15,000 regulated firms.

Many firms specialise in a specific sector such as fund management or retail investment intermediaries and, in a sign of the times, we are now very active in the Consumer Credit and Regulatory Hosting, Culture, Financial Crime and SM&CR arenas. Other members have cross sector capability and range from sole traders to the largest consultancies in the sector, all benefitting from the membership as part of the wider consulting community.

Representation.

With us, you have genuine influence in the corridors of regulation.

We put forward your views to the decision makers at the heart of policymaking in key UK Financial Service Regulators and Stakeholders.

- Your interests will be actively represented at both a local and national level.
- By joining one of our working groups, you will have the opportunity to make your views clear.
- We listen to what our members want - you can influence what we campaign for.
- You'll be given access to policy consultations, debates and engagement seminars, through which you can put your views across.

“ As a busy consultant, I have little time for engaging and limited influence on all the policy matters that I would like to. Being a member of the APCC enables me to easily have my say on a larger scale. ”

Events.

Meet fellow consultants and learn the latest in style.

Our members benefit not only from the dialogue we have with industry bodies, but from our regular forums, technical briefings and networking interaction with other members.
